Benefiel Automatic Handi-Tool

HANDI-TOOL does all the work of the best of Jacks and has dozens of other uses—Indispensable on the farm as a post puller—fence wire stretcher—used when adjusting tractors or heavy machinery—pulls loaded motor lorry or wagon out of the mire without removing load. Capacity 4 tons. Also used as baling machine—clamp—or vise.

HANDI-TOOL is the greatest labor saving device for factories, mines, contractors, builders, lumbermen, mechanics and garage men, etc. etc.

HANDI-TOOL is made both in double and single action; the single action tool should be the most important item in the tool box of every automobile, motor lorry or tractor.

Distributing commission agents and importing dealers wanted in all parts of the world.
